

ZEPHIR 750

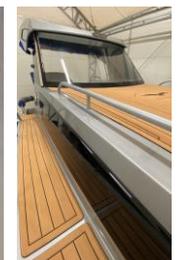

PRICE LIST: 03/2023r

At WHITE EAGLE BOATS, we tailor what we offer to the dreams and expectations of our clients. To those who enjoy peaceful cruising on inland waters, we offer the comfortable ZEPHIR 750 houseboat.

The main criteria applied during design was functionality and comfort.

The ZEPHIR 750 features an aluminium hull of a 'sandwich' type i.e. an aluminium outer hull filled with cellular insulating foam with a thickness of 70 mm. As a result, the hull is perfectly insulated from both cold and heat. The yacht features a vast array of equipment that goes far beyond standard issue.

The ZEPHIR 750 is intended for cruising on sheltered basins, main rivers, channels and lakes. In view of its functionality, this boat is comparable to river barges but its artistic design gives it the character of an elegant motor yacht.

Technical parameters

Total length (plus platforms and anchor)	[m]	8,40
Hull length	[m]	7,80
Design waterline length	[m]	7,15
Total width	[m]	2,97
Maximum immersion	[m]	0,60
Total weight	[kg]	3200
Displacement	[kg]	4500
Minimum motor power	[HP]	20
Maximum motor power	[HP]	50
Maximum crew	[Person]	8
Fuel tank	[dm ³]	105
Water tank	[dm ³]	300
Greywater tank	[dm ³]	200
Hull material	-	ALUMINIUM + cellular insulating foam 70mm
Design category	-	C

**Equipment**

Outboard motor	MERCURY F40 ELPT CT EF11
Hydraulic actuator with rudder pump	ULTRAFLEX GOTECH 115HP OBF KIT W/OB-GT/M60
Anchor lift	LOFRANS X1 500V
Anchor	10kg BRUCE type
Anchor chain	8mm, galvanised, calibrated 23m
Gas system	
Gas cylinder	2kg
Gas cut-off solenoid valve Gas	YH-1288 1/2" DN15
Stove with sink	DOMETIC
Navigation	SIMRAD GO9 XSE
Radio/TV system	-
Radio/TV antenna	GLONEX Mod. V9112AGC
Radio	FUSION typ MS-RA205
Automatic bilge pump	OSCULATI Europump 1000
Bilge pump float switch	OSCULATI 14A uniwersalny
Manual bilge pump	OSCULATI
Solar ventilation fans	2 x COMBO 12V
Potable water system	kitchen/toilet
Potable water pump	SEAFLO SFDP1-012-035-21 WAO 24L
Hydrophore diaphragm tank	WAO 24L
Greywater system	kitchen/toilet
Greywater pump	GULPER 220 12V
Refrigerator	VITRIFRIGO C90 I OCN 90L
Electric system	
Illuminated hotel board	
Integrated power supply system	charging tracks: 12V/40A (hotel), 12V/15A (bow), 12V/7A (start), hotel power supply with buffering system: 700W - continuous, with several-minute overload: 2800W.
START battery	AGM 12V/55Ah 1 pc..
HOTEL battery	AGM 12V/120Ah 2 pcs
RUDDER/ANCHOR bow battery	AGM 12V/120Ah 1 pc.
Converter	12V/230V/500W + remote control
Separator	SE-3/VK for charging from the alternator
PZG-3/m panel	start lever, hotel, safe automatic /m module: bilge pump, memory radio, heating, reserve. Additionally, for the person in the berth between the cockpit and the board, a 230V socket and USB socket.
Vertical PZG-3/m panel	bilge pump acoustic signal
Bow panel	rudder/anchor lift
Switchboard ~230V	RCD, chargers, sockets, refrigerator, boiler, TV, AUX, with converter automatics, 230V info, boiler info.

MODUL012 Vsignal board

- cabin lighting
- refrigerator
- gas cylinder cut-off solenoid valve/control from the hotel board, gas valve at the cylinder.
- freshwater pump
- electric toilet/shower-bath pump (greywater)
- radio
- 12V/USB sockets inside cabins – line
- energy monitoring - full control over energy in the hotel and rudder/lift
- batteries 2 shunts: measurement of U, J and Ah for the hotel and rudder/lift.
- measurement of 3 levels of liquid
- 230V info

MADE IN POLAND

WHITE EAGLE

ZEPHIR 750

- boiler info
- illuminated

Helmsmans panel with illumination of descriptions/button-based

- navigation lighting
- navigation instruments
- cockpit ceiling lighting
- cockpit floor lighting
- deck lighting
- wiper
- acoustic signal
- 12V/USB sockets on the panel
- panel illumination
- separator activation info
- illuminated
- IP-67 metal/mechanical buttons with illumination

energy distributor M-level3 transducer for the energy monitor and liquid levels monitor

complete port terminal set with adapter - 3 metres

kitchen panel: 230V socket - right side of the worktop

kitchen panel: 230V socket - left side of the worktop

bow panel: 230V/USB

mesa panel: 230V/12V/USB

2 x grounding strip for DDC-8

MODEL CATALOGUE PRICE: 102 000,00 EURO NETTO + 23% VAT

The price applies to a model with standard equipment.
